To whom it may concern:

BCG, Inc. is a Development Consultant firm based in La Jolla California specializing in Development Management for a fee throughout Southern California. One of the most important elements of any Development program is the assimilation of the best team for any given project. We have used and will continue to use Kepco as our lead team member for exterior wall construction simply because Kepco is aggressive, competitive, and understands how the total team must function in order to be successful in the construction market. We have a very high level of confidence in Kepco and do not hesitate to recommend their services.
