Re: Utah State Capitol – Restoration and Base Isolation Project

Dear Bruce,

I want to take a moment and let you know how pleased I am with your accomplishments at the Utah State Capitol project. From the very start of the project you and your team were willing to dive in and be a major contributor to the design efforts and continue that drive to a successful completion of the stone and terra cotta work. Your accomplishments on the terra cotta work was extraordinary, the terra cotta column design, fabrication and erection was definitely “out of the box thinking”, a trait that is common for your group. Each of your associates; Steve Judd, Chris Knaphus, Jeremy Simmons, John Kunz, Mark Knaphus, Steve Christensen, Bob Durant and others deserve several pats on the back.

Looking forward to working with you and your firm again.

Sincerely,
JACOBSEN CONSTRUCTION COMPANY, INC.
